

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قُلْ هَلْ يَسْتَوِي الَّذِينَ يَعْلَمُونَ وَالَّذِينَ لَا يَعْلَمُونَ إِنَّمَا يَتَذَكَّرُ أُولُوا الْأَلْبَابِ ⑨

آپ ان سے پوچھیں کیا علم والے برابر ہیں لاعلموں کے، بے شک یہ چونکا دینے والی بات ہے غور و فکر والوں کے لئے

(آیت نمبر 9، سورۃ الزمر پارہ 23)

Say, "Are those who know equal to those who do not know?"
Only they will remember [who are] people of understanding.

Without education it is complete darkness and with education it is light. Education is a matter of life and death to our nation. The world is moving so fast that if you do not educate yourselves you will be not only completely left behind, but will be finished up. The Holy Prophet (PBUH) had enjoined his followers to go even to China in the pursuit of knowledge. If that was the commandment in those days when communications were difficult, then, truly, Muslims as the true followers of the glorious heritage of Islam, should surely utilize all available opportunities. No sacrifice of time or personal comfort should be regarded too great for the advancement of the cause of education.

Quaid-e-Azam Muhammad Ali Jinnah

Vision & Mission

Vision:

To evolve as a leading medical college that advances global models of standardized education, innovative research and community health care.

Mission:

Al-Aleem Medical College Shall produce highly professional and committed doctors by focusing on Student centered quality education using advance teaching strategies supported by innovative research to meet the highest standards of patient and community healthcare

Outcomes & Values

Educational Outcomes

Our graduates will be able to:

- Demonstrate knowledge of basic medical and clinical sciences (Knowledgeable)
- Manage common diseases independently and assist in the management of critically ill patients (Skillful)
- Demonstrate professional, ethical and culturally appropriate attitude (Professional)
- Manifest the qualities of a leader and role-model as healthcare provider (Leader and Role Model)
- Demonstrate communication and counseling abilities (Communicator)
- Practice disease prevention and health promotion strategies (Community Health Promoter)
- Conduct medical research (Researcher)

Values

- Quality Education
- Experimental Learning
- Research Based Decision Making
- Social Responsibility
- Patient Centered Approach

Al Aleem Medical College took place in 2017 in Gulab Devi Hospital. I see those days very near when these doctors would become pioneers in detecting and devising optimal methods of management in these specialties especially geared for the indigenous presentations of these disease in our country. Taking each student's individuality into consideration is an indisputable factor in their success which is why a personalized pedagogic relationship is one of our teaching priorities, and the educational personnel is ready to provide help and confidence to the students to accompany them in their learning and schooling.

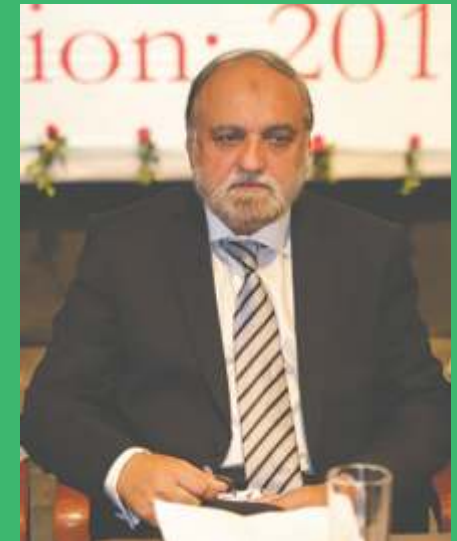

Syed Shahid Ali Shah
President Managing Body

Dr. Abid Ali
Project Director

As a part of Al Aleem Medical college, you have an intrinsic role of contributing the best you can, in creating a comfortable home to dwell by harmoniously studying and cooperating with the other students and staff within the framework stipulated by rules and regulations. During our 5-year program students will acquire the knowledge and skills required to deliver, under supervision, the highest level of safe patient care, and will be able to communicate and interact effectively with patients and colleagues. Students will also develop the confidence required to become future leaders of the healthcare sector. I hope that Al Aleem will continue to scale new heights and our students will serve the society by utilizing the experience.

I welcome you to Al Aleem Medical College, with a vision to uplift the medical education in Pakistan. Al Aleem Medical college is dedicated to deliver high quality education to the students. Besides this, it is preaching humanity associated with this noble field. The college encourages its faculty to focus on each and every student and inspire them to overcome their shortcomings and appreciate their success. To succeed in medical field, a student should have an interest to learn and should not stop learning. We offer a safe learning environment that promotes college and career readiness through varied course offerings. Once you are admitted in this institute you will feel the difference! It is homely and you will find this institute as a place where your academic career can flourish.

Prof. Dr. Hamid Hassan
Principal

Dr. Imran Hanif
Vice Principal

Al Aleem Medical College aims to produce future doctors who will be professionally competent, excellent in ethical values and practice, cognizant of community health needs, research oriented, and latest health technologies, capable of meeting the global health challenges. They will be able to place themselves at national and international levels in a highly competitive environment. We opted for the latest modes of teaching and assessment methods, devised a human development system based curriculum focussed on personal, professional and ethical development. We have hunted for the best teaching faculties who are trained at home and abroad including a dedicated supporting staff. Come join us in our strong will and desire for quality education and a bright future. We assure you that your efforts will not go in vain in the march towards creating the most efficient and prominent world class group of doctors.

AL-ALEEM MEDICAL COLLEGE

Introduction and History:

Gulab Devi Hospital has been providing exceptional care for the patients and their families since 1934 with the passion and commitment. Gulab Devi provides the full range of clinical services, tertiary care, health promotion and prevention program. Al Aleem Medical College is another milestone achieved by Gulab Devi Hospital. The idea to provide the best medical education along with the practical approach of training for our doctors in the country gave birth to the Al-Aleem Medical Collage in 2017 which was conceived as a part of Gulab Devi Educational Complex, all the vast facilities that are a part of GDEC are also provided to the Al-Aleem Medical Collage.

Al-Aleem aims to:

extend teaching facilities.

establish, maintain, and promote medical research centers.

encourage, promote, support and arrange symposia, seminars, lectures, classes, demonstrations and exhibitions to produce quality education for the students.

Gulab Devi Hospital was initially conceived by a prominent Hindu political leader of Punjab in 1928 who built a memorial hospital/treatment facility to perpetuate the memories of his beloved mother Gulab Devi

Quaid-e-Azam Muhammad Ali Jinnah visited Gulab Devi Hospital as Governor General of Pakistan on 6th of November 1947 accompanied by Mother of the Nation Mohtarma Fatima Jinnah and placed his remarks with signature of both brother and sister on the Visitor Book which are still preserved in original with the present Managing Committee considering this an asset. The valuable wording of Quaid-e-Azam is reproduced as under;

“I visited the Gulab Devi Hospital which is now attending to the refugees on the 6th Nov. 47. Those who are in charge of it, doctors, nurses & others are doing excellent work and deserve our thanks for their selfless devotion to the humanitarian work.”

AL-ALEEM MEDICAL COLLEGE

This small 28 bedded facility over the years has now grown to become a 1500 bedded chest hospital dealing with chest and cardiac ailments – the biggest in this country.

In order to keep the doctors working here, abreast of the latest progress and advances in the disciplines of chest and cardiac diseases, the educational activities were proceeding since long; however, it was felt that the vast number of patients presenting here with such myriad patterns of diseases could easily provide a rich research substrate for generating pioneering management guidelines for the diseases in this field the world over. In order to translate this aim into a practical shape, a need for energetic researchers and teachers of these disciplines gave birth to Al-Aleem Medical College. This prestigious institution aims at producing highly professional and committed doctors. Quality education using advance teaching strategies supported by innovative research to meet the highest standards of patient and community healthcare is the key factor at Al-Aleem Medical College.

Quality Enhancement Cell

GULAB DEVI EDUCATIONAL COMPLEX being a prestigious educational institute has always been conscious of the quality of its education and services and to address the important aspects. QEC's frame works is a road map to continuous improvement and constitutes a means to measure the institute's commitments to implementing the highest standards of quality through reflection, discovery and advancement. Realizing the challenges to be faced in the field of higher education during 21st century, impact of globalization and the need for knowledge based economy the GULAB DEVI EDUCATIONAL COMPLEX has established the Quality Enhancement Cell in 2018. The QEC is the centralized department which objective is to support the institute & its endeavors to improve the standard of education and research and make it compatible with international requirements. The QEC believes that the issue of quality enhancement cannot be separate from the quest of excellence. For this purpose the QEC develops the Quality Assurance Process and Evaluation Methods including Self Assessment Programme.

QEC is responsible for the up-gradation of the following

Annual monitoring and evaluation including program monitoring, faculty monitoring, and student's perception.

Departmental review

Employer feedback

Subject review

Institutional assessment

Department of Medical Education

Vision

The department shall be a center of excellence in promoting medical education in health profession.

Mission

The Department of Medical Education shall integrate the educational activities of Al-Aleem Medical College through curriculum oversight, innovative educational strategies, latest assessment methodologies, student-centered environment, and medical research.

Departmental Facilities

MEDICAL EDUCATION

CLINICAL SKILL LABORATORY (CSL):

The Clinical Skill Laboratory is used for both teaching and evaluating the clinical skills of the medical students. A separate curriculum has been developed for the CSL for the undergraduate students. The CSL is also involved in conducting clinical performance examination as well as Objective Structured Clinical Examination (OSCE).

STUDENT COUNSELING:

Medical students are exposed to a variety of pressures, many of which may cause stress and depression. A team that includes a clinical psychologist provides counseling services whenever required. The students are offered counseling in: Personal Issues, Professional Development, Career Selection.

The Curriculum Cell

The Curriculum Cell deals with following aspects of curriculum: Planning, designing, implementing, monitoring, reviewing and evaluating the curriculum. Its purpose is to ensure that the Curriculum is in congruence with the Vision of the University, the Mission of the institute and is aligned with the Educational Outcomes defined by the institute.

Research Cell

The Research Cell of Al-Aleem Medical College has a strategic role in shaping research policy and activity. It provides opportunities for the faculty for research and lays special emphasis on participation of students in research activities

Medical Education

Introduction

The Department of Medical Education oversees the academic mission of the college and strives continuously to enhance the quality of medical education. The department provides centralized support for all educational activities in the college. It serves as an academic home for the faculty, and unites the core teaching faculty from across the college, with a sole focus on the educational mission of the college. The DME has an oversight and management of all aspects of the medical curriculum as well as student assessment and course evaluation. We also support the delivery of the programme, the lifelong development of the faculty and the innovative learning activities that utilize simulations (through clinical skill laboratory) and standardized patients. The DME members serve in a variety of educational college committees including curriculum committee, institutional review board, student counseling committee, and assessment committee.

Values

- Integrity.
- Excellence in medical education.
- Student centricity.
- Ethical practice.
- Patients' priority.
- Collaboration and team work.
- Compassion and empathy.
- Dedication.
- Excellence in learning environment.
- Service provision.

Department Goals

- To assure optimal delivery of the curriculum.
- To accelerate adoption of active and engaged learning across the curriculum.
- To support research activities.
- Service provision to other departments.
- To build capacity of the academic staff.
- To develop our students into physicians who can provide patient-centered care and fulfill the community needs.
- To collaborate with local national and worldwide educational institutions.

Department of Anatomy

Vision

- The department of anatomy is aimed to provide high quality\ anatomy teaching, learning and research facilities to undergraduate students.
- It significantly contributes its role in raising Al-Aleem medical college to be one of the leading national medical institute and an steemed centre for research by upgrading to a university

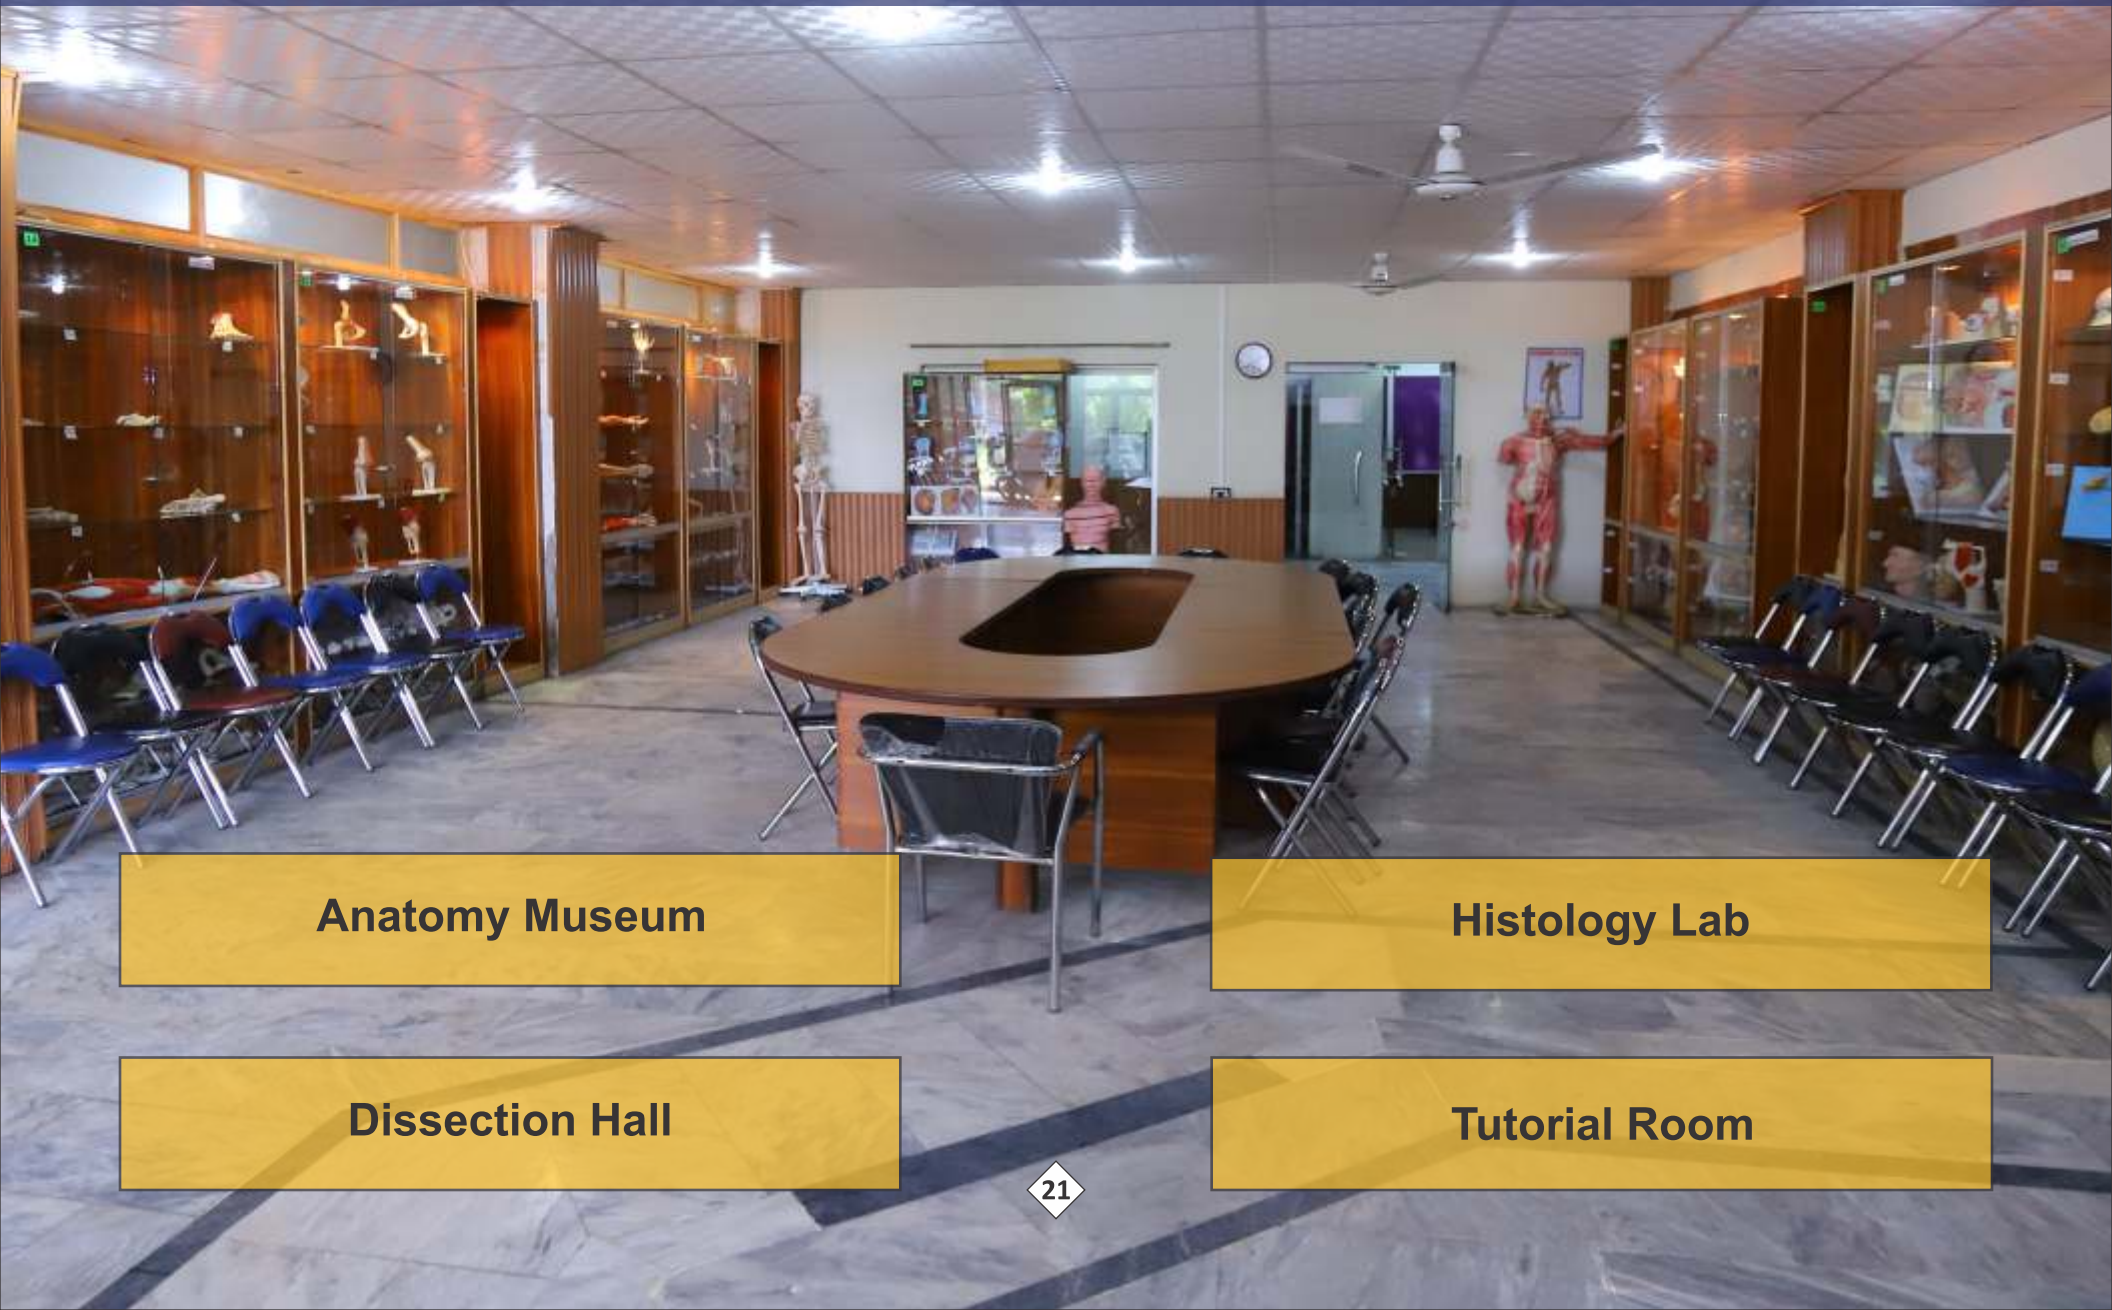

Mission

- The mission of the department of Anatomy is to teach, train, groom, encourage and facilitate our undergraduate MBBS students.
- To inculcate in them the zeal and zest for enquiring, exploring and communicating their queries and thoughts to enable them become excellent future physicians and researchers for the benefit of the nation

Departmental Facilities

ANATOMY DEPARTMENT

Histology Lab

Dissection Hall

Tutorial Room

Anatomy

Introduction

Al-Aleem Medical College was recognized by PMDC in April 2017. The Anatomy Department started its academic activity with 1 st Year MBBS on 4th June 2017.

The fully equipped purpose built Department of Anatomy has been started on the ground floor of existing current building, while the actual Anatomy college building is located within the Gulab Devi premises and is under construction

Future Opportunities

Currently the department is following the hybrid curriculum provided by UHS.

In future in accordance with the change to modular and evaluation system by UHS, the department will shift to modular system, with computerized and e-learning facilities.

Department Goals

To provide students with a comprehensive knowledge of morphology of human body and its clinical application.

To provide a conducive teaching and learning environment for the students and faculty to enable them achieve academic and research excellence

Department of Physiology

Vision

To instill life-long learning in a student-centered training environment conducive to research that will enhance the health of the any community world-wide

Mission

We at the department of Physiology aim to:

- Do our best in instilling virtue, professionalism and competence in our under and post graduate trainees
- Foster an evidence-based research culture in the teaching and learning of Physiology.
- Provide a working environment based on respect; valuing individual contributions empowering team work

Departmental Facilities

PHYSIOLOGY DEPARTMENT

·Lectures.

Small group discussions / Problem based learning / Team based learning / Flipped classroom techniques / Case Based Learning.

Hands-on practical approach in the laboratory / Case Based Learning.

Computer assisted practical / patient examination by the Data Acquisition System.

Research oriented / Evidence based clinical approach.

Skill laboratory based training of clinical methods on models/patients.

Faculty training workshops as part of Continuing Medical Education.

Physiology

Introduction

The department of Physiology is attached to Al-Aleem Medical College, affiliated with University of Health Sciences, Lahore. Physiology is amongst the basic medical subjects and hence has been established with the required infrastructure, professional and qualified faculty.

The under-graduate of MBBS will be attending the Physiology academic session for the first two years of the five year course

Future Opportunities

- Implementation of M.Phil. Physiology program.
- Provision of state of the art Physiology Laboratory.
- Implementation of FCPS in Physiology.
- Faculty Training Programs

Future Opportunities

- Implementation of M.Phil. Physiology program.
- Provision of state of the art Physiology Laboratory.
- Implementation of FCPS in Physiology.
- Faculty Training Programs

Department of Biochemistry

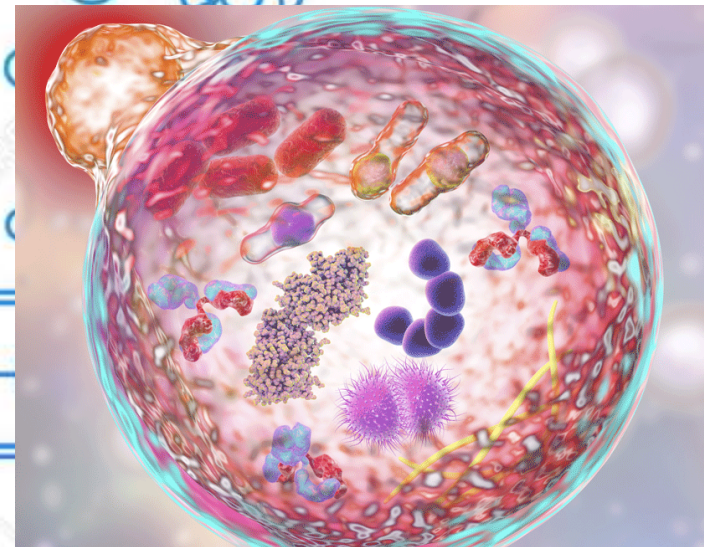

Vision

To inculcate the understanding of molecular events that govern normal physiological functions and pathological disturbances of human body in contextual manner

Mission

Program emphasizes on

- Acquisition of knowledge of the subject in depth via various teaching/learning modalities like interactive lecture sessions, team-based learning (TBL), individual assignments, directed self-learning (DSL) and self-directed learning (SDL).
- Building attributes like cooperativity, critical thinking and problem solving skills through working within teams in practical demonstration exercises and small group discussions.
- Enhancing the professionalism, communication and leadership qualities through class presentations.

Departmental Facilities

BIOCHEMISTRY DEPARTMENT

The department is fully equipped with teaching aids and laboratory facilities and follows an efficient teaching methodology.

Teaching Methodology includes interactive lectures, small group sessions, problem-based learning, team based learning and practical classes.

The spacious laboratory has spectrophotometer, colorimeters, photometer analytical, electrophoresis, pH meters, centrifuge machine, electronic balances, microscopes, incubators, water bath, distillation unit, automated pipettes, dispensers, Hot air oven, and incubators.

The laboratory has required equipment, chemicals and glassware with huge capacity for performance.

Demonstration room is well compatible with all the basic requirements for small group discussions, demonstrations and group presentations.

Biochemistry

Introduction

"Biochemistry marches on!" More you explore more you appreciate. Understanding a harmonious balance of biochemical processes at molecular level in the body helps to comprehend the fundamentals of Medicine, the "Science of Healing".

The Department of Biochemistry at Al-Aleem Medical College is presently engaged in equipping the students with basic knowledge of Biochemistry in integrated manner.

Future Opportunities

The department is committed to provide the research opportunity to its faculty and students who intent to, in collaboration with other departments and other institutes.

Future Opportunities

The most essential skill of today's physician is to apply integrated knowledge of separate basic sciences effectively in a clinical setting hence the special emphasis is given on the applied aspects to have a better command on human chemistry with relevance to common functional disturbances.

Department of Pathology

Vision

Pathology department aims to provide state of art diagnostic pathology services while achieving excellence in pathology research and education

Mission

Pathology department is committed to provide outstanding education for undergraduate, graduate and post graduate students along with provision of comprehensive, high quality and up to date diagnostic services required for optimal patient outcome and health meeting the international demands

Departmental Facilities

PATHOLOGY DEPARTMENT

Haematology Lab

Chemical pathology Lab

Histopathology Lab

Microbiology Lab

Pathology Museum

Tutorial Room

Pathology

Introduction

- Pathology is a multidisciplinary field that focuses on disease at microscopic, molecular, chemical and microbiological level.....
- It supports every aspect of health care, guiding doctors on right way from diagnostic tests to treatment of common diseases.....
- Pathologists play a major role in research devising new treatments to fight viruses, infections and diseases like cancer.....
- Pathology department of AAMC will be teaching general pathology, special pathology & microbiology to MBBS 3rd year & 4th year students along with post graduate FCPS histopathology training to the post graduates with innovative research opportunities.

Future Opportunities

Pathology department has been accredited by College of Physicians and Surgeons Pakistan for FCPS Histopathology training programme in December 2018. The pathology department will be providing training to the post graduate trainees. The up gradation of Al Aleem Medical College to the university is under process, thus will be providing M Phil and Ph D programmes in various subspecialties of pathology like microbiology, hematology, chemical pathology, histopathology, immunology and molecular pathology.

Department Goals

To teach students utilizing the modern teaching methodologies and integrating continuing medical educational programmes in the departmental activities. To provide a clinical and research oriented environment to achieve academic and research excellence

Department of Pharmacology

Vision

To provide a nurturing interactive environment that will enlighten and encourage the minds of our medical students, guiding them in reaching the pinnacle of their potential in grasping the knowledge of Pharmacology.

This will help in building a strong foundation for clinical practice. We envision our department as the flourishing stronghold in research and post graduate training in Pharmacology

Mission

Our mission is to impart quality health education in the Science of Pharmacology by offering our students individual attention by our brilliant, committed, and helpful staff members.

Departmental Facilities

PHARMACOLOGY DEPARTMENT

The department of Pharmacology is equipped with sophisticated equipment and needs special skills for its operation. Pharmacology laboratory is equipped with modern equipment to meet the demands of undergraduate and postgraduate students for pharmacology practical and research projects. There is a museum in which various items related to routes of administration, dosage forms of drugs, sources and active principles of drugs are displayed.

Pharmacology

Introduction

Established in 2017, Pharmacology Department consists of professor, assistant professors, senior demonstrator and demonstrators. All the staff is highly competent and has been working in even the most challenging of environments, capable of inculcating the basic knowledge of the subject as well as the necessary details of all the required curriculum. Every member of the faculty has cordial relations with the faculties of other departments to make sure that there is integration, necessary to create a sound academic environment. The faculty will maintain a good correspondence and clear communication with MBBS students and their representatives.

Objectives

To impart knowledge and application of various groups of pharmacotherapeutics in clinical practice. This will be achieved by gaining a comprehensive understanding of properties, mechanisms of action & adverse effects of the proposed drugs. Arrangement of informative lectures, small group interactive discussions, hands on practical, multimedia presentations, videos & frequent assessments will be targeted methods of teaching. Practical will be conducted to study the effects of diverse drugs on isolated tissues.

Course Objective

By using various teaching methods, helpful visual aids, small group activities, and frequent assessments we hope to facilitate our students to become our nation's future pharmacologists and clinicians.

Department of Community Medicine

Vision

To improve health and wellbeing of the community by focusing on promotive and preventive health care.

Mission

To design and implement Community Based Learning strategies as part of Community Oriented Medical Education (COME) pertaining to promotive and preventive health care for training of medical students.

Departmental Facilities

COMMUNITY MEDICINE DEPARTMENT

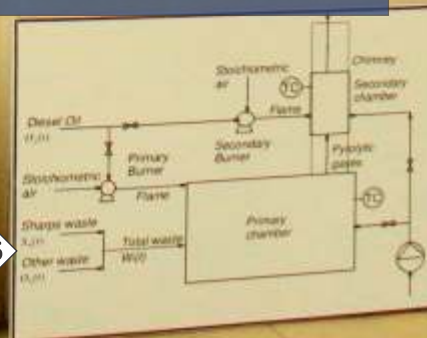

Books Library

Museum

Digital Library

10 WORKPLACE SAFETY

Community Medicine

Introduction

The purpose of Community Oriented Medical Education (COME) is to take into consideration the priority health problems of the country in which it is imparted. Thus, the objective is to produce doctors who are able and willing to serve their communities and deal with endogenous health conditions at primary, secondary and tertiary levels of care.

Al-Aleem Medical College, affiliated with Gulab Devi teaching hospital has been envisioned as one such medical college with a very strong teaching and training component based on Community Based Learning (CBL).

Future Opportunities

Applying for accreditation with College of Physicians & Surgeons of Pakistan (CPSP) for post-graduate studies (FCPS) in Community Medicine..

Course Objective

At the end of the course in Community Medicine, the students should be able to:

- Promote their health by adopting healthy lifestyles and health educate /counsel patients and communities for the same.
- Demonstrate strategies for prevention and control of epidemic diseases and disease surveillance.
- Demonstrate the ability to prevent injuries and provide emergency care such as First aid and Basic Life Support.
- Outline environmental protective strategies
- Display knowledge and skills to prevent and respond to disasters and calamities

Department of Forensic Medicine

Vision

It imperative for medical man to know laws that are relevant to his profession to understand his position in relation to state, patients, colleagues and others so that he can practice his profession according to legal dictates.

Mission

“To prepare the future doctors to fulfill their medico-legal duties with confidence and the medico-legal problems no more remains their bet noire

Departmental Facilities

FORENSIC MEDICINE DEPARTMENT

The knowledge in forensic medicine has vast application and with the increase interest and research work there have been many advancements in technology, new DNA procedures and instrumentation. Students can collaborate on research projects bring insight from disparate studies to formulate new methodologies; topics ranging from finger printing, genetics, drawing photoifts from DNA to pre- crime policing. The future with forensic medicine looks mighty interesting

Forensic Medicine

Introduction

The Department of Forensic Medicine and Toxicology provides teaching, training and certification of Medico-legal work. Law and medicine have been interrelated and interdependent since antiquity. There are two important facets of this relationship, the legal aspects of medicine and the medical aspects of law. Forensic Medicine deals with the medical aspect of law and the impact of law on medical practice

Future Opportunities

Forensic medicine students have a number of opportunities, both in the speciable area of forensic investigation and in other associated fields requiring an enquiring, scientific and legal mind. With a Degree in forensic medicine you can be the future toxicologist, forensic scientist, forensic computer analyst, forensic pathologist, forensic psychiatrist or even opt t become the head of department

Department Goals

To provide comprehensive knowledge of the subject and to create conducive teaching and learning environment. To introduce different effective methods of teaching and learning i.e., Small group discussions (SGD), Team-Based Learning (TBL), etc.

- Providing compassionate, evidence-based, longitudinal care to adults with a special emphasis on those with multiple chronic medical conditions.
- Giving high-quality cost-effective care to patients hospitalized at Gulab-Devi hospital
- Educating medical students, residents and other health professionals in the art and science of being a good doctor.

Mission

The Department of Medicine aims to improve health of the people through quality, patient-centered care, innovative research and education of the next generation of physicians.

Departmental Facilities

GENERAL MEDICINE DEPARTMENT

Two 40 bedded units each.

Fully equipped Procedure rooms.

Fully equipped Critical and intensive Care Units

24- hour emergency services

6 days a week OPD services

General Medicine

Department Goals

At the end of the Final Year Clinical Rotation, medical students should have a well-developed foundation in the following areas to provide for patients in the inpatient setting.

1. Basic Clinical Skills

Students will be taught to develop and refine their skills in:

- history and physical examination; obtain a patient's history and physical exam in a logical, organized, and thorough manner
- diagnosis: prioritize patient problems and formulate a differential diagnosis based on the key findings from the history and physical examination and laboratory evaluation. diagnosis based on the key findings from the history and physical examination and laboratory evaluation.
- treatment: develop a logical and efficient management strategy, begin to understand risks, benefits, and compliance issues in choosing a treatment.
- test interpretation: interpret blood smear, gram stain, electrocardiogram, chest X-ray, and urinalysis.

2. Communication Skills

Students will be taught to develop effective communication skills with patients, families, and other health care providers.

- with patients: demonstrate listening skills, respond to the patient's emotional needs and point of view, identify hidden agendas, and provide clear explanations.
- with colleagues: demonstrate accurate and organized written and oral presentations of new admissions and follow-up patients.

3. Professionalism

Students will be taught to recognize and act within the limitations of their knowledge and skills and practice in a scholarly manner to foster lifelong learning

- taking initiative, being curious
- seeking feedback from your team members
- demonstrating honesty and integrity in all professional activities

Department of General Surgery

Vision

To achieve a culture of clinical and service excellence through patient-centered care

Mission

Gulab Devi Surgical Department is committed to make a positive difference in the health and wellbeing of all we serve

Departmental Facilities

GENERAL SURGERY

Two units of 38 Beds each.

Fully equipped operation theatres

24-hour emergency services.

7 days a week OPD services.

Four operation days/week.

Facility of Advanced Laparoscopic Surgery.

General Surgery

Introduction

- Department of surgery provide compassionate and high quality evidence-based patient care
- Department has full potential to train future surgical leaders in conducive environment for groundbreaking basic science and clinical research
- Our commitment to discovery and innovation encourages us to move promising new therapies from the laboratory bench to the patient's bedside.

Future Opportunities

To establish a center of excellence in advance Laparoscopic and Bariatric surgery.

Department Goals

To teach and train undergraduate, postgraduate and allied health sciences students up to the mark to complete in any challenging environment

Department of Gynecology & Obstetrics

Vision

The prime vision of our teaching program in obs-gyne is to enhance and direct the development of young medical doctors so that they can serve with distinction. The core program will be based on acquisition, storage and retrieval of knowledge, clinical and academic skills and essential human qualities of empathy to produce safe and efficient doctors

Mission

Our mission is to develop various components of doctor-patient relationship including the in-depth medical knowledge and skills, observable demonstration of sympathy, objectivity and professional conduct with critical attitude towards medical literature and research work.

Departmental Facilities

GYNECOLOGY & OBSTETRICS

INDOOR FACILITIES

Emergency labor ward

Two Antenatal wards

Two Gynecology wards

Departmental library

Faculty offices

Operation theater (03)

Conference/Tutorial room

OUTPATIENT DEPARTMENT

Gynecology clinic

Antenatal clinic

Examination room

Family planning clinic

Colposcopy clinic

Gynecology & Obstetrics

Introduction

The Department of Obstetrics and Gynecology, Al-Aleem Medical College is a fully functional unit providing Obstetric and Gynecology services to women from all spectra of life. The Department consists of two units i.e the indoor and the outpatient clinic.

Department Goals

- Clinical practices build on a good knowledge of basic health sciences (e.g. anatomy, physiology, biochemistry, pharmacology and pathology) applied to obs/gyne.
- Communication skills to obtain pertinent history from patient or husband/family
- How to approach a sick female and perform physical examination of all systems
- Analyze data to formulate a logical conclusion and plan a management plan
- Order appropriate investigations
- Ability and skills to perform obstetric & gynecological procedures
- Obstetrics and gynecological emergencies and their management
- Active participation in research and publications
- Ethics of gynaecological medicine and maintenance of medical records and follow-up
- Advise the community on matters relating to promoting health and preventive care
- Participate actively in didactic lecture/presentations, CPC and journal club
- Recognize the role of team work and function as an effective team member
- Supervise/train professionals and the junior member of the team

Department of Pediatric

Vision

Pediatric medicine is the department which deals with general well-being of children and to treat the diseases which occur in children. Faculty is available as per PMDC rules

Mission

Help the children to maintain and promote health and treat the diseases which occur in pediatric lifetime.

Departmental Facilities

PEDIATRIC

Ward: 38 beds including 10 ICU beds

Nursery: 12 beds and 1 ICU bed

Procedure room

Class room

Library

OPD

Pediatric

Introduction

Paediatric department has two sub unit. One is paediatrics and other is neonatology. It comprises of a Professor, two Assistant professors and Eight medical officers.

Future Opportunities

It is newly established department which consists of OPD, pediatric ward and nursery. We are looking forward to improve ICU care and our services regarding very sick and critical patients for both neonates and children will improve in near future.

Department Goals

To provide tertiary care to neonates and children by next six months and to provide teaching facilities to medical students and post graduates.

Department of Orthopedics

Mission

To deliver effective and high quality health services. To act to improve the health of our population and to do everything we can to address the causes of health inequalities

Vision

To deliver Better Health for our communities through population-wide and individual focused initiatives. The aim is to maximize health and well being and prevent illness.

Departmental Facilities

ORTHOPEDICS

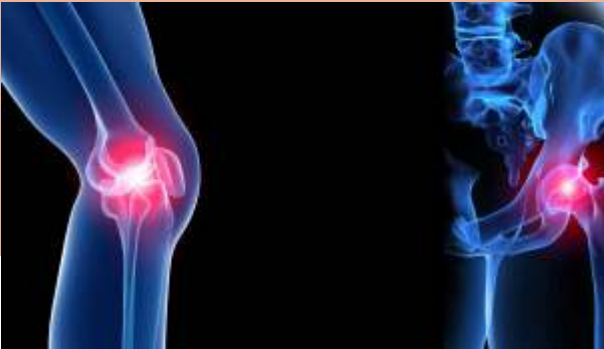

All Trauma Procedures

Arthroscopy of Knee, Shoulder, Ankle and Wrist Joints

Sports injuries management

Various Elective Orthopedic Procedures

Orthopedics

Introduction

Trauma and Orthopaedic Department has been established as part of Al-Aleem Medical College / Gulab Devi Educational Complex and we are proud to achieve several mile stones in a very short time. We are offering Adult and Paediatric trauma services, Elective orthopaedic services, Sports Injuries (Arthroscopic ACL Recon Knee and Rotator Cuff repair Shoulder) and Arthroplasty services under supervision of Our **Foreign Qualified Faculty**. We are proud to say that we are Only Semi-Govt Setup offering **Arthroscopic treatment of Wrist and Ankle Joint conditions**. Our first research looking into the **surgical site infection rate** has already been completed and we are proud to be standing next to International institutions in our Results with surgical site infection rate of only 1.6%. This is just the beginning and we Aim to improve and expand our services to further serve the communities. We are Dedicated and Organised to look after our patients for best possible outcomes.

Department Goals

- Teaching of Undergraduate Doctors.
- Training of Postgraduate Doctors.
- Teaching of para medical staff

Department of Cardiac Surgery

Vision

- To offer a spectrum of high-tech cardiac surgical treatment, postoperative care and rehabilitation.
- To provide humanitarian and welfare services to community regardless of their socioeconomic status.

Mission

- To provide safe, cost effective and quality services to cardiac surgical patients.
- To regularize professional training and implementation of professional standards regarding doctors, nursing staff and paramedics.
- To emphasize teamwork and collection with other departments.

Departmental Facilities

CARDIAC SURGERY

Main Cardiac Surgery ICU of 5 beds.

Cardiac Surgery preop ward of 20 beds.

Fully equipped Operation Theater.

24 hours emergency service.

OPD follow up and Rehabilitation Services.

INR Clinic.

Cardiac Surgery

Introduction

The Department of Cardiac Surgery is providing surgical patients with best possible comprehensive & compassionate care through outstanding surgical results.

This Department aims towards the advancement in clinical research and teaching with dedication and excellence in patient care, comprised of two surgeon and a team of medical officers.

Future Opportunities

- Innovative research and advancement in new and less invasive surgical techniques.
- Hybrid procedures and collaboration of cath lab.
- Cardiac Surgery training programs, evaluation and feedback training programs.
- Establishment of ECMO for cardiac + respiratory failure patients.

Department Goals

Involvement of stakeholders:

- Research Excellence.
- Clinical Excellence.
- Educational Excellence.

Department of Ophthalmology

Vision

The Eye department of Al Aleem Medical College envisions providing specialized treatment in dedicated sub-specialty clinics for all patients with the aim of prevention of blindness

Mission

The Department of Ophthalmology aim to make the best standards in eye care accessible to all. It also a mission to provide specialized training in Ophthalmology with a variety of courses including undergraduate postgraduate and post-fellowship programs.

Departmental Facilities

OPHTHALMOLOGY

Our department comprises of a complete general ophthalmology OPD where all patients can be screened, evaluated and directed to necessary treatment. The operation theatre can accommodate for a variety of surgeries including cataract, glaucoma and oculoplastic surgeries. Selected retinal surgeries are also being done. Diagnostic unit includes a B-Scan USG and a Hess chart

Ophthalmology

Introduction

Ophthalmology is one of the important allied surgical specialty in the MBBS curriculum. As a General Practitioner, one routinely encounters eye disease. A good understanding of common eye disease and those associated with systemic disorders is required at undergraduate level. The subject is being taught in 3rd & 4th year MBBS, and clinical rotation are done in both OPD and IPD in 4th year. Final ophthalmology exit exam takes place at the end of 4th year MBBS.

Department Goals

- To impart the learners most updated clinical knowledge in Ophthalmology.
- To equip them with high level of professional competence.
- To help them excel in education at both undergraduate and postgraduate level in Ophthalmology.
- To start postgraduate program in Ophthalmology.
- To inculcate research culture in the Ophthalmology department.
- To provide state of the art evidence based health care in all the fields of Ophthalmology.

Department of ENT

Vision

It is newly establish Depth at Gulab Devi teaching Hospital. It will be out utmost wish to establish it such that clinical work up to recent advances.

Mission

To create an environment of mutual respect and trust in the department so that our patients get maximum care and trainees excel within available resources.

Departmental Facilities

ENT

A close-up photograph of a male doctor with dark hair, wearing a white lab coat over a light green shirt, examining a patient's ear. The doctor is holding an otoscope to the patient's ear. The patient is wearing a black headscarf. The background consists of blue and white striped curtains.

We are currently running 16 bedded ward ENT Department 2 operation days 4 days OPD perfecting major and minor Surgeries with 24 hours emergencies. Our OPD is 500 patients per week and 10 to 15 cases of surgeries monthly.

ENT

Introduction

- Department of Otorhinolaryngology (ENT) is a constituent department of Al-Aleem Medical College/ Gulab Devi Teaching Hospital.
- The department routinely operate OPD four days a week and routine ENT operations are performed twice a week. This department also manage ENT emergencies seven days a week.
- College of Physician & Surgeons (CPSP) has accredited this department for MCPS training in otorhinolaryngology.

Future Opportunities

Computerized record keeping and up-gradation of equipment in ORs and ICU.

Department Goals

To up the working conditions to a standard where accreditation with bodies like CPSP, Health care commission etc. is possible.

Department of Urology

Vision

It is newly developed department at Gulab Devi Teaching Hospital. It will be our utmost wish to establish it as a center of excellence for the treatment of poor and deserving people suffering from urinary tract diseases.

Mission

To create an environment of mutual respect and trust in the department so that our patients get maximum care and trainees excel within available resources

Departmental Facilities

UROLOGY

Twenty bedded ward

Outpatient department

Operation theatre

Facilities for endoscopic surgeries

Urology

Introduction

Urology Department at Aleem Medical College was established in March 2018. We are taking care of outdoor patients in all working days and emergency daily. We have twenty bedded ward and fully equipped operation theatre for open as well as endoscopic surgery free of cost 02 days a week.

Future Opportunities

To develop this department for the training of MS and FCPS students.

Department Goals

To develop state of the art urology center with all modern facilities, including Extra Corporeal Short Wave Lithography (ESWL), retrograde internal surgery (RIR), uroterorenoscopy, incorporeal lithotripsy and open surgery including radical tumor surgery and renal transplant.

Department of Dermatology

Vision

Our Vision is to facilitate poor patients as much as possible regarding their clinical, lab investigations and treatment. Meanwhile ensuring the better educational facilities for the upcoming medical students.

Mission

To create a state of art dermatology department that will excel both in clinical dermatology and aesthetics/cosmetology so that post graduate trainee get better training in all basic and advanced techniques.

Departmental Facilities

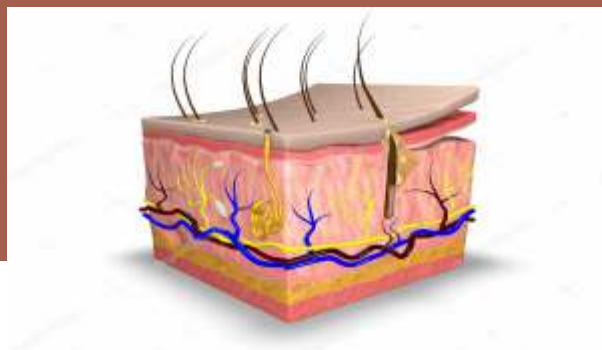

DERMATOLOGY

Outdoor twice a week.

Twenty beaded ward

We are performing dermatological procedures like electro cautery, elector fulgration, cryotherapy and skin biopsies, woods lamp examination.

Dermatology

Introduction

- Dermatology Department Ghulab Devi Hospital is a fully functional 20 bedded indoor and outdoor patient department
- The curriculum includes student presentations, interaction, feedback and workshops.
- The department has phototherapy, topical skin therapies, patch test, latest machinery/equipment, educational charts and reference books.

Future Opportunities

Upgradation of basic equipments. Aesthetic procedures like laser, phototherapy, microneedling and PRP etc.

Department Goals

Safe and trusted working conditions both for patients and Faculty. To get accreditation from CPSP for MCPS and FCPS programs.

Department of Psychiatry

Vision

Our vision is to continue to provide best possible care to our patients. We want to promote impactful research in the field of Psychiatry to improve patient care.

Mission

Department of Psychiatry provide patient-centered care of high standard through a team of highly professionals. Senior clinicians and future consultants keep themselves updated through continuous professional development and research.

Departmental Facilities

PSYCHIATRY

Department of Psychiatry has been approved for training of FCPS and MCPS in Psychiatry

Inpatient and Outpatient Services

Psychiatric Care to Students of Gulab Devi Educational Complex

Teaching of Behavioural Sciences to students of Allied Health Sciences, Physiotherapy and Paramedic Students

Electroconvulsive Therapy

Internship and clinical placement programmes for students of Psychology

Psychiatry

Introduction

Since its inception, Department of Psychiatry at Al Aleem Medical College is working to promote mental health. We provide state of the art treatment to our patients.

Future Opportunities

Clinical placements for students of Psychology.

An opportunity to develop Psychodynamic skills.

Department Goals

To provide quality education to undergraduate and postgraduate students. To provide high quality psychiatric care to our patients.

Department of Anesthesia/ ICU & Pain Management

Vision

Ours is relatively young facility, however, it will be out utmost wish to establish it such that clinical work is done with safety and a an upto mark training is extended for future specialists in the field of anaesthesia and intensive care.

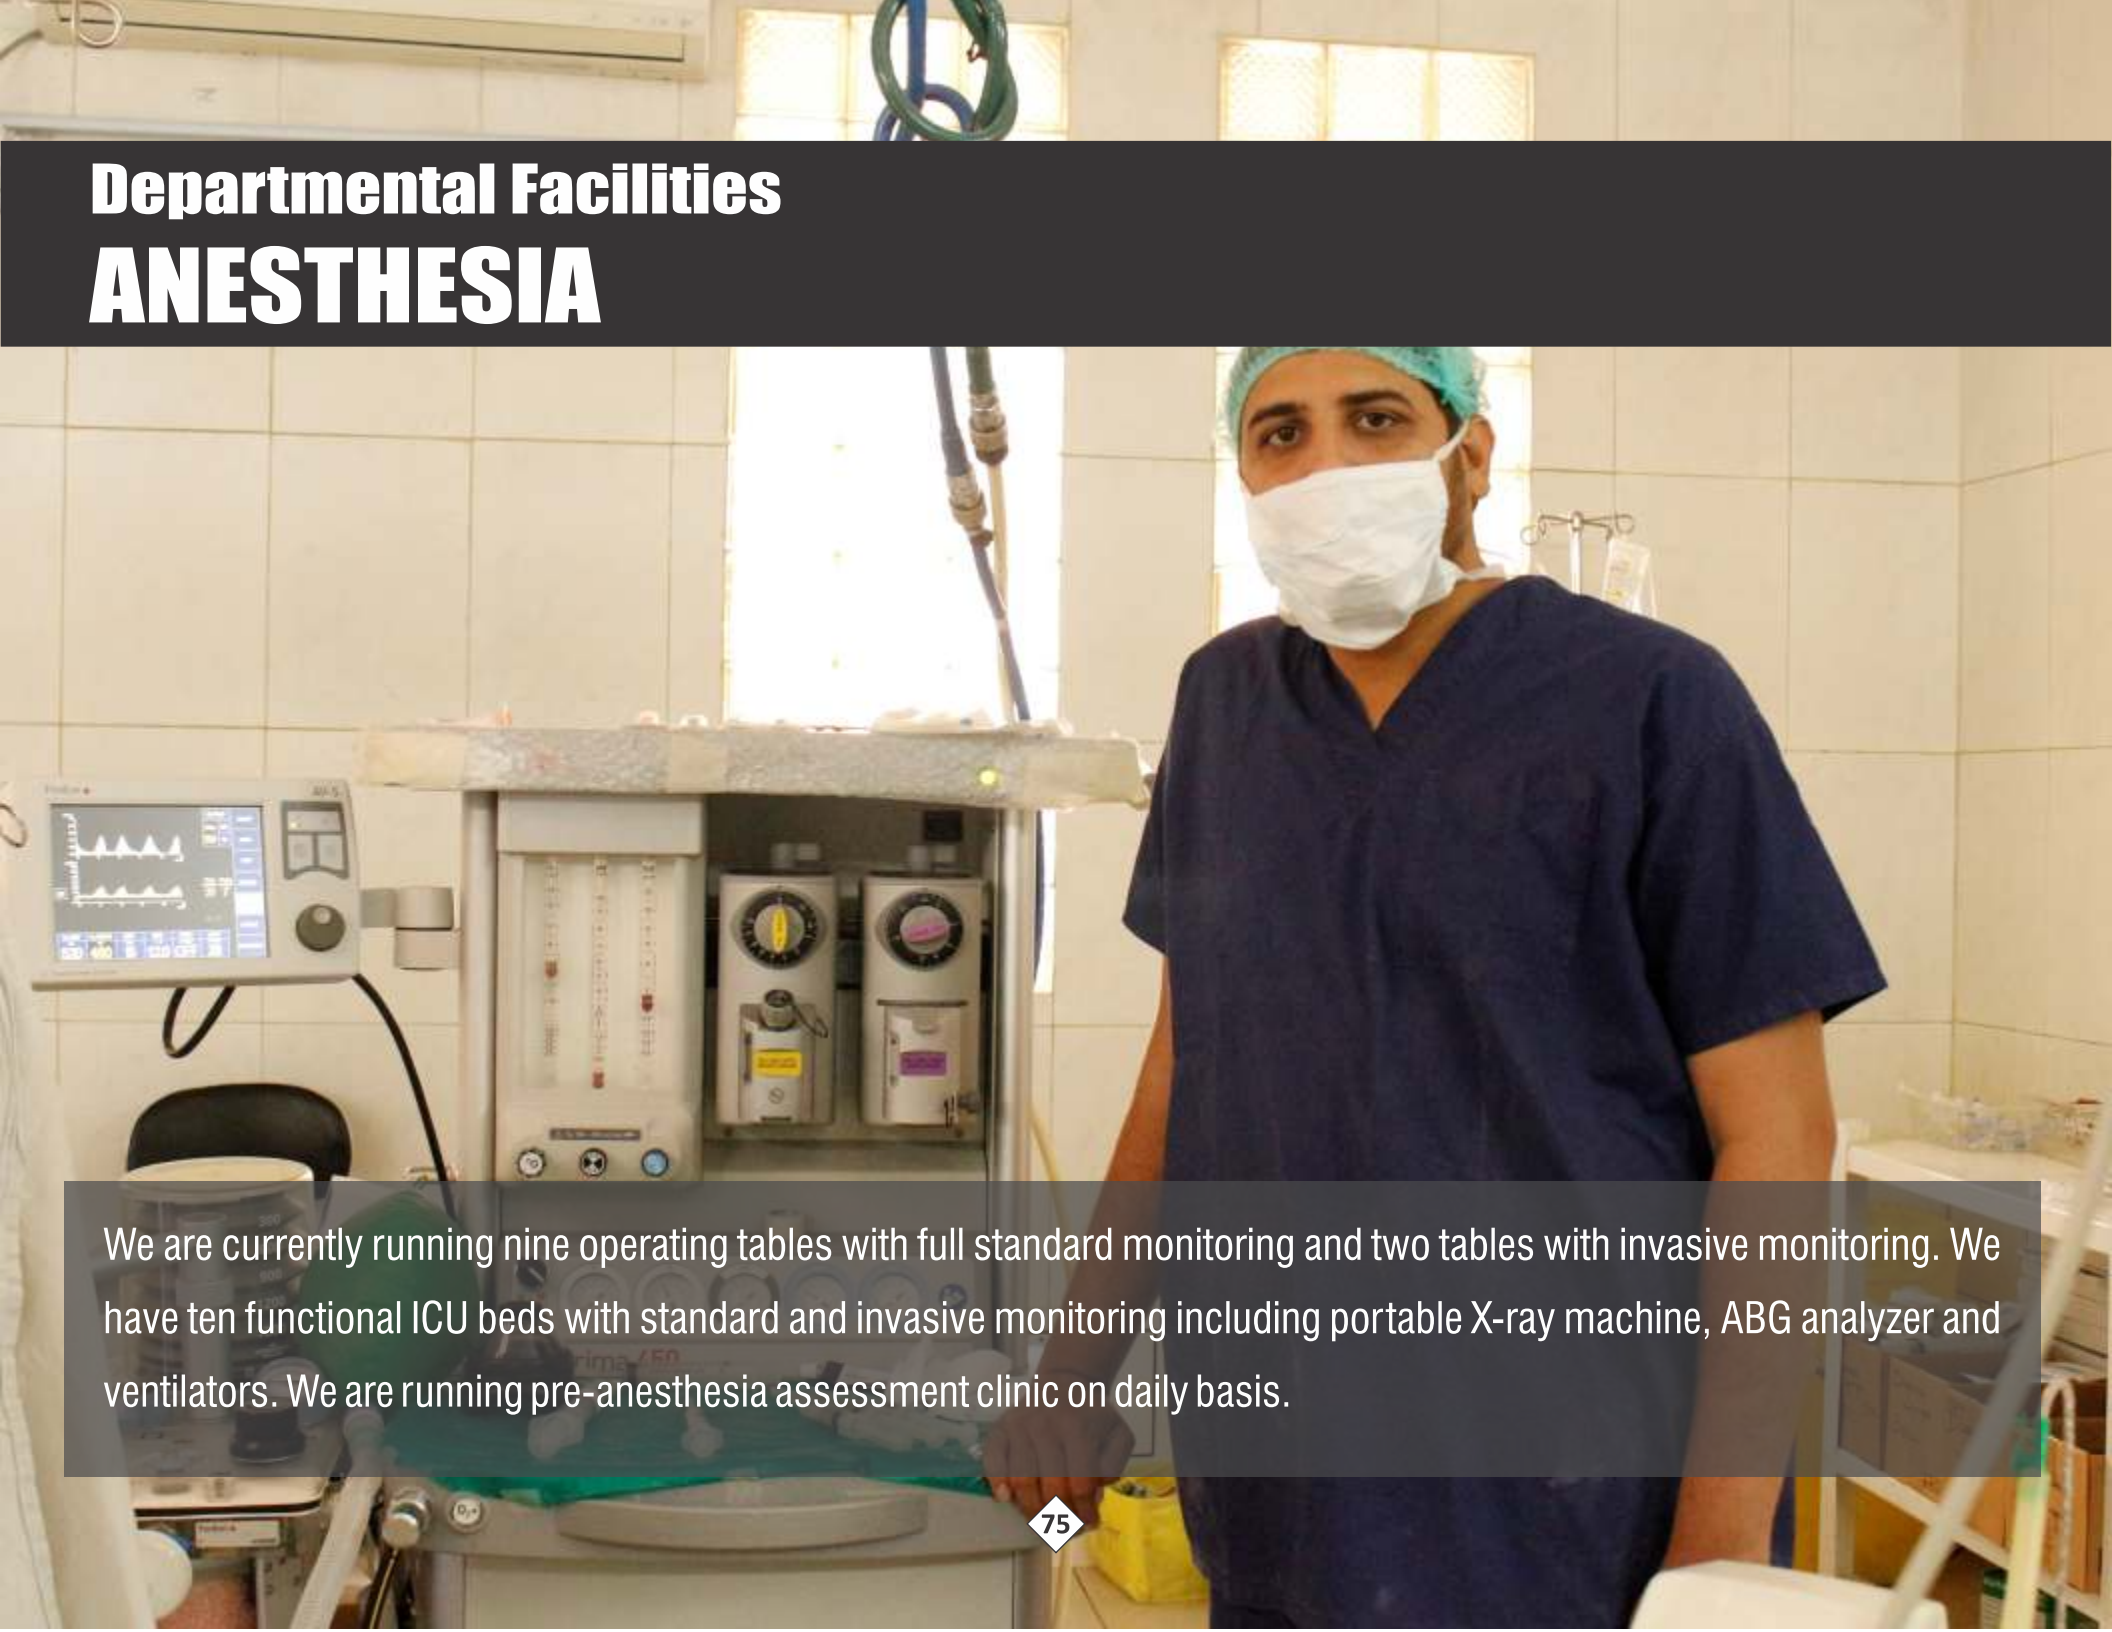

Mission

To create an environment of mutual respect and trust in the department so that our patients get maximum care and trainees excel within available resources.

Departmental Facilities

ANESTHESIA

We are currently running nine operating tables with full standard monitoring and two tables with invasive monitoring. We have ten functional ICU beds with standard and invasive monitoring including portable X-ray machine, ABG analyzer and ventilators. We are running pre-anesthesia assessment clinic on daily basis.

Anesthesia

Introduction

The department of Anesthesia is a well-established and a well-equipped one. It is as old as the department of thoracic surgery. It is properly established in 1980. Dr Ghazanfer Sukhaira was the first regular Anesthetist in Gulab Devi Chest Hospital. Prof. Dr Shafiq-ud-Din was visiting Anesthetist from Mayo Hospital Lahore during 1970 to 1980. After retirement of Dr Ghazanfer Sukhaira, Dr. Zubair Ahmed Qureshi took charges of the department. Currently Prof Dr Zia Haider is serving the department as head.

It is an entire anesthesia institution by now, which is capable to produce competent and capable anesthetists, who can serve and perform anywhere independently within the country as well as out of country. The basic purpose and aim of anesthesia department is to furnish and improve the skills of anesthetist in a desire way so that he/she can compete with anesthetist of anywhere within the country or throughout the world.

Future Opportunities

Computerized record keeping, pain clinic and upgradation of equipment in ORs and ICU.

Department Goals

To up the working conditions to a standard where accreditation with bodies like CPSP, Health care commission etc. is possible

Department of Cardiology

Vision

To provide excellent patient care, irrespective of their paying capacity and produce professionals trained consultants and researchers in the field of cardiology.

Mission

To provide state of the art health care facility to the cardiac patient suffering from different cardiac diseases and provide ongoing teaching and training of young doctors, nurses and undergraduate and postgraduate students and carry out different research projects in the field of cardiology.

Departmental Facilities

CARDIOLOGY

ECG

ECGOCARDIOGRAPHY

ETT

HOLTER MONITORING

CORANARY ANGIOGRAPHY

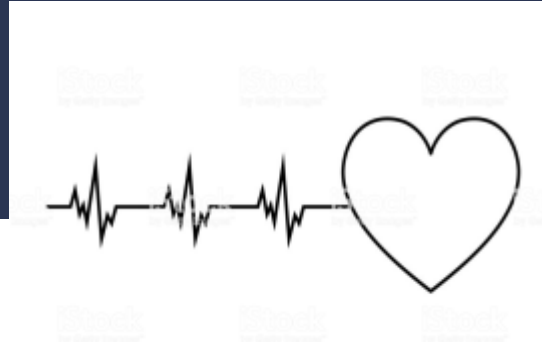

CORONARY ANGIOPLASTIES

ROTABLATIONIVUS

BALLOON VALVULOPLASTY

PERMANENT PACE MAKER
IMPLANTATION

Cardiology

Introduction

The Cardiology Department, Gulab Devi Hospital, Lahore/ Al-Aleem Medical College was established in 1996. At that time the department was primitive and only clinical cardiology was practiced. Currently all the modern cardiac facilities are available in the Department of Cardiology. It has CCU's, Cardiology Department, ETT Department Echocardiography, Cardiac Catheterization (Diagnostic and Interventional) and CME for education and training of undergraduate and postgraduate students. Since its inception, the Cardiology Department, Al-Aleem Medical College/ Gulab Devi Hospital, Lahore has trained a large number of cardiologists who are serving in Pakistan and abroad.

Future Opportunities

Nuclear cardiology.

Cardiac imaging Cardiac CT & MRI.

Trans-catheter aortic valve implantation.

Department Goals

Training for cardiology residents focusing on diagnosis, management, treatment and prevention of cardiovascular diseases.

Bedside teaching as well as ward round centered around interactive case based learning. Supervision of resident dissertation, case reports and abstracts. Education of faculty and other providers on evidence based cardiovascular medicine.

Department of Pulmonology

Vision

Our focus is to become the pulmonary care center of choice for the patients, physicians and employees because of our preeminent patient care and teaching programs. We are constantly striving to improve in not only clinical and surgical procedures but at the same time be a front runner in research, innovation and education. Our prime focus is to cater to the needs of the entire community especially the underprivileged through incomparable care and wellness programs.

Mission

Our mission is to provide compassionate, accessible, high quality and cost effective care for all patients with pulmonary diseases with a special focus on management of Tuberculosis. Moreover, we believe that utmost importance should be given to patients safety, security and comfort and this can only be done by adopting a patient-centered approach. Our institution intends to provide a platform for our staff members where they can constantly improve their knowledge by keeping them updated about the current practices and the latest advancements in the world of Medicine.

Departmental Facilities

PULMONOLOGY

We have an indoor facility accommodating over 800 patients, with separate units for males and females. There is a dedicated High Dependency Unit catering for 44 terminally ill patients and a chest ICU that is well equipped with Ventilators and monitoring facilities and has a capacity of 20 patients. Non Invasive Ventilators are available in ICU, HDU as well as in the wards.

Interventional procedures that are offered include the following:

Bronchoscopy

Medical Thoracoscopy

Tube Thoracostomy

Bedside Ultrasonography

USG Guided biopsy

Sleep Studies (Polysomnography)

Pulmonary Function Tests

Pulmonology

Future Opportunities

We at Al-Aleem medical college constantly strive to develop a modern, well equipped, up-to-date pulmonology unit implementing the latest management modalities available worldwide . In addition to this we aim at conducting research and grow as a department at regional, national and international level with an aim to contribute in finding the cure for the conditions currently deemed incurable. Moreover, initiating a pulmonology training institute for both undergraduates and postgraduates is one of the major concerns of the department of Pulmonology.

Department Goals

The main objectives of our department are: To promote pulmonary health in our community with a special focus on smoking cessation
To maintain high standards of pulmonary care with a commitment to serve beyond patients expectations
To apply firm knowledge and use key skills in reaching the correct diagnosis with the commencement of best possible management
To train physicians and pulmonary care staff for achieving the departmental goals.

Library

The library at Al Aleem Medical College is a specialized medical/health sciences library envisioned to serve the faculty, students, researchers and staff of the college.
